BY-LAW NO. 2026-36

"Being a By-law to Amend Zoning By-law 2020-20, as amended"

WHEREAS the Corporation of the Township of Nipissing has received an application to amend Zoning By-law 2020-20 as amended;

AND WHEREAS Section 34 of the Planning Act, R.S.O. 1990, c.P.13, as amended, authorizes the Council of a municipality to pass Zoning By-laws to regulate the use of land, buildings or structures in accordance with Section 34(1) of the Planning Act Planning Act, R.S.O. 1990, c.P.13.

NOW THEREFORE the Council of the Corporation of the Township of Nipissing enacts that By-law 2020-20, as amended, is hereby amended as follows:

1. That a portion of the subject lands located on Rye Road, Part of Lot 5, Concession 4, Plan 42R-22984, be rezoned from the Rural (RU) Zone to the Environmental Protection (EP) Zone as shown on Schedule 'A1'; and,

2. Schedule A to Zoning By-law 2020-20 shall be amended in accordance with Schedule 'A1', attached hereto.

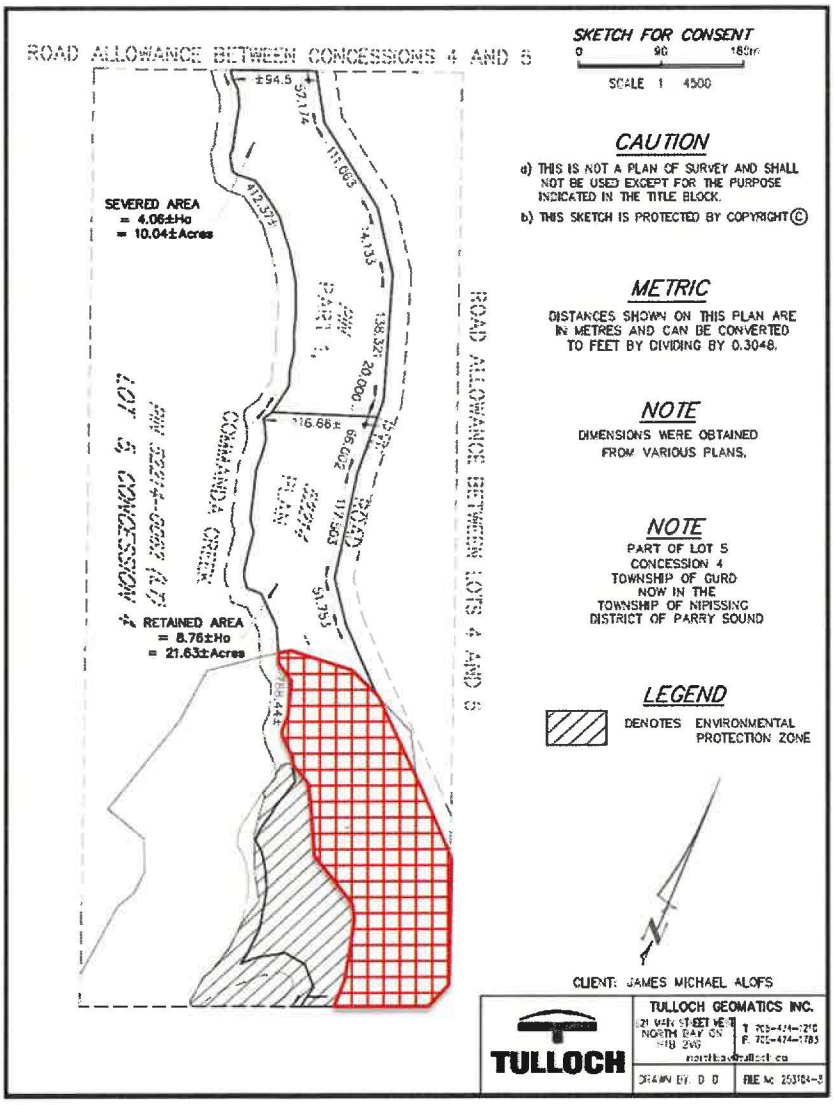

Read a first, second and third time and passed this 6th day of October, 2026.

September 30, 2026

Hon. Robert J. Flack
Minister of Municipal Affairs and Housing

Re: Council Comments on the Proposal for Regulations to Establish a Standardized Municipal Code of Conduct

Council reviewed the proposal and overall were satisfied with the regulations.

There was a question posed by a Council member regarding the basis of a complaint being substantiated under the Human Rights Code or by the Employment Standards of Ontario requirements.

The intent of the question being to ensure that the grounds of a complaint resulting in the recommendation that a Council member's seat be declared vacant be of a significant nature to ensure that the democratic process of elected representation not be interfered with.

Respectfully,

Kris Croskery-Hodgins
Municipal Administrator-Clerk-Treasurer

Dear Ms. Croskery-Hodgins:

I am very pleased to inform you that your municipality has won a 2025 Financial Information Return (FIR) Recognition Award. Thank you for your efforts and contribution in ensuring that timely, reliable and accurate financial information was submitted for the Township of Nipissing's 2025 Financial Information Return. Your municipality will be identified on the FIR website (https://efis.fma.csc.gov.on.ca/fir/index.php/en/financial-information-return-en/) as one of the winners of this award.

As you know, the FIR reports capture important financial and statistical information for each municipality in the province. This information assists the Ministry of Municipal Affairs and Housing in providing current data to the growing number of users of our municipal database and supports informed government decision-making.

Thank you for the leadership and diligence your municipality has demonstrated in this important area.

Sincerely,

Robert J. Flack

FONOM
Federation of Northern Ontario Municipalities

FOR IMMEDIATE RELEASE

September 24, 2026

FONOM Welcomes $3.4 Million Investment in Northern Manufacturing

NORTH BAY, ON — The Federation of Northern Ontario Municipalities (FONOM) welcomes the Ontario government's announcement today of more than $3.4 million through the Northern Ontario Heritage Fund Corporation to support 12 manufacturing companies and approximately 80 good-paying jobs across Northern Ontario.

FONOM President Dave Plourde said investments that strengthen Northern Ontario businesses and manufacturing capacity are important to the region's long-term economic prosperity.

"We welcome these investments and the confidence they demonstrate in Northern Ontario businesses and workers. Supporting local manufacturing helps strengthen our communities, create jobs and build a more resilient northern economy," said Plourde.

Plourde noted that economic growth must be supported by the infrastructure needed to move people, products and resources safely and efficiently.

"As we continue to grow our manufacturing, mining, forestry and other sectors, we also need to make sure our transportation infrastructure keeps pace. Four-laning Highways 11 and 17 must remain a priority as we build the Northern economy and strengthen these important east-west connections," he said.

FONOM looks forward to continuing to work with the provincial and federal governments to support investments that create jobs, strengthen Northern communities and ensure the infrastructure needed for future economic growth is in place.

About FONOM

The Federation of Northern Ontario Municipalities represents 110 municipalities across Northeastern Ontario. FONOM works to improve residents' quality of life and ensure Northern Ontario's future prosperity by advocating on behalf of its member municipalities.

Medical Officer of Health Update

Health and social service organizations across the districts are finding it harder to make ends meet. In this environment of fiscal restraint, the North Bay Parry Sound District Health Unit (Health Unit) is exploring how we might collaborate with partners to make public dollars go further while staying true to our mandate and strategic priorities.

Some of the ideas being explored with community partners include staff secondments to organizations whose work complements our own, as well as opportunities for community use of Health Unit spaces, such as meeting rooms or unused blocks of time in clinical areas. Below are two examples of recent collaborations:

Strengthening Partnerships and Community-Based Health Promotion

West Parry Sound OHT Work Assignment

The purpose of the Community Health Promoter (CHP) assignment with the West Parry Sound Ontario Health Team (WPS OHT) is to support WPS OHT priorities through a health promotion, community engagement, knowledge translation, and partnership approach.

The CHP assignment currently supports initiatives related to Alternate Level of Care (ALC) prevention and reduction, patient and community engagement, and knowledge translation of system and community partners.

This assignment has:

- Allowed for integration of Health Unit and OHT goals, including a focus on older adults, frailty and community service awareness.
- Offered the opportunity to support rapid literature reviews of evidence that will be of benefit to the Health Unit as well as the OHT, including how best to reach adults living in rural communities with health information.

- Built and strengthened relationships with community partners across sectors
- Allow for community engagement and relationship building among partners, municipalities, and primary care.
- Led to insights into planning for future program activities that could overlap between OHT and NBPSDHU goals.

North Bay Indigenous Hub Secondment

A Registered Dietitian (RD) secondment at the North Bay Indigenous Hub (NBIH) began in mid-May and has offered an opportunity to strengthen relationships between the NBIH and the Health Unit over the past months. Highlights of the role include the opportunity to connect internal staff at NBIH with internal staff at the Health Unit, as well as enhancing the seconded RD's knowledge of cultural safety practices. These learnings can be disseminated within the Health Unit as applicable. The opportunity to work with NBIH staff to co-create and deliver health promotion workshops for community members in a wholistic way has benefitted both Indigenous clients and the partnership between organizations.

Seasonal Respiratory Vaccines

The Health Unit is gearing up to offer seasonal immunization clinics for the general public and high-risk groups across the districts, providing convenient opportunities for people of all ages to protect themselves against respiratory viruses. These clinics will also help improve access to immunization for individuals who may face barriers to receiving vaccines through primary care or pharmacy settings. Together with community partners, the Health Unit continues to explore opportunities to make immunization services more accessible to individuals who may face barriers to accessing traditional vaccination services in the community.

Sexual Health

In response to increasing rates of gonorrhea infections across the district, a public health bulletin was distributed in August to health care providers. The bulletin highlighted the rise

in cases, encouraged testing of all relevant exposed body sites, and raised awareness that gonorrhea treatment is available at no cost through the Health Unit. Public messaging has also been enhanced through social media and other communication channels to promote sexual health services and increase awareness of testing and treatment options.

Ticks

New Tick Smart signs have been developed by the Environmental Health program to display information to the public on how to protect against ticks, check for ticks, and how to remove ticks. In partnership with Mattawa Conservation Authority the signs are being installed at Conservation Authority trails across our district.

Early Childhood Development

The Health Unit is the "backbone" organization for The Basics movement in Nipissing and Parry Sound districts. This movement creates a community ecosystem to support parents and caregivers in promoting early learning and brain development through five evidence-based, simple principles. Monthly family activity calendars based on The Basics principles have been developed and are now distributed through HBHC home visits, EarlyON Child

and Family Centres, and social media channels, providing families with practical ways to support healthy child development through everyday interactions and routines.

September 10, 2026

RE: 6.17 TAPMO Newsletter July 2026

Please be advised that Township of Puslinch Council, at its meeting held on August 26, 2026 considered the aforementioned topic and subsequent to discussion, the following was resolved:

Resolution No. 2026-255: **Moved by Councillor Sepulis and Seconded by Councillor Bailey**

That the Consent Agenda item 6.17 be received for information; and

Whereas the Aggregate Resources Act, R.S.O. (ARA) governs the licensing and regulation of aggregate pits and quarries in Ontario;

And Whereas the Planning Act and the Provincial Planning Statement establish the policy framework for land use planning in Ontario and recognize aggregate extraction as an interim land use, with defined expectations for progressive rehabilitation and ultimate transition to an appropriate end use;

TOWNSHIP OF
PUSLINCH
est. 1850

And Whereas the Ministry of Natural Resources (MNR) has provided written clarification confirming that where a licensed site's site plan expressly permits the importation of aggregate material from other licensed sites in Ontario:

- such imported material may be brought to the site;
- such imported material does not count toward the site's annual licensed tonnage limit; and
- where processing and blending are permitted in the site plan, imported material may be processed or blended for the duration of the licence;

And Whereas under the Ministry's current interpretation, imported aggregate material that is processed or blended is not currently subject to annual licensed tonnage limits or associated TOARC levy payments;

And Whereas this interpretation may enable a licensed site to function as an ongoing industrial processing and blending facility, including in circumstances where on-site extraction has ceased or is winding down;

And Whereas municipalities may experience increased truck traffic, road deterioration, noise, and dust impacts where processing and blending continue independent of extraction;

And Whereas such an outcome may not align with the planning principle that aggregate operations are intended to be interim land uses and may have implications for municipal land use planning, infrastructure management, environmental oversight, and long-term rehabilitation objectives;

And Whereas clarity and consistency between the implementation of the ARA and the provincial land use planning framework are essential to maintaining policy coherence and municipal planning certainty;

Now Therefore Be It Resolved That the Council of Township of Puslinch respectfully requests that the MNR reconsider its current interpretation respecting the importation, processing, and lending of aggregate material under the ARA, particularly where such interpretation:

- permits unlimited importation of aggregate material from other licensed sites;

TOWNSHIP OF
PUSLINCH
est. 1850

- excludes imported and processed materials from annual licensed tonnage limits; and
- allows processing and blending activities to continue for the duration of the licence without regard to the interim nature of aggregate extraction contemplated under provincial planning policy; and,

That the Province clarify how the interpretation and administration of the ARA will be aligned with the *Planning Act* and Provincial Planning Statement, including the recognition of aggregate extraction as an interim land use with defined rehabilitation and transition objectives;

That the Province provide guidance on how imported and processed aggregate materials are to be considered in relation to licensed tonnage limits, rehabilitation timelines, and the interim land use intent of aggregate operations;

That the Province consult with municipalities prior to finalizing any policy, regulatory, or interpretive direction related to importation, processing, blending, and tonnage calculations under the ARA and importantly any TOARC regulatory reform;

Further be it resolved that the Council of the Township of Puslinch supports TAPMO's call for policy clarification regarding importation, processing and blending under the Aggregate Resources Act; and

Be It Further Resolved That a copy of this resolution be forwarded to the Minister of Natural Resources, the Minister of Municipal Affairs and Housing, the Association of Municipalities of Ontario (AMO), the Top Aggregate Producing Municipalities of Ontario (TAPMO), MPP Joseph Racinsky and all Ontario Municipalities.

CARRIED

TOWNSHIP OF
PUSLINCH
est. 1850

As per the above resolution, please accept a copy of this correspondence for your information and consideration.

Sincerely,

Justine Brotherston
Municipal Clerk

September 21,2026

Motion **# 2026-**

WHEREAS the Board of Powassan and District Union Public Library (PDUPL) recognizes the significant essential services provided by public libraries in Ontario and specifically in rural communities where the library serves as a vital community hub providing access to Literacy, education, technology, employment services, community programs and partner health services.

AND WHEREAS the provincial funding received by the Municipalities for the PDUPL has remained at $22,101 annually since 1990 despite significant operational increases to provide library services.

AND WHEREAS the Powassan and District Union Public Library serves the residents of the Municipality of Powassan, Nipissing Township, Chisholm Township, Restoule and surrounding communities

AND WHEREAS the contributions of the Municipality of Powassan, Nipissing Township, Chisholm Township and Restoule have increased to $237,218.00 in 2026 placing an increasing financial burden on municipal taxpayers.

BE IT RESOLVED the Board of Powassan and District Union Public Library supports the Armour township August 11, 2026 motion #2026-236 to petition the Government of Ontario, through the Ministry of Tourism, Culture and Gaming, to substantially increase and provide sustainable, predictable operating funding for Ontario's public libraries;

BE IT FURTHER RESOLVED THAT copies of this resolution be forwarded to the Municipalities who support the Powassan and District Union Public Library for their consideration and support.

AND BE IT FURTHER RESOLVED THAT this letter of support be sent to the Premier of Ontario, the Minister of Tourism, Culture and Gaming, the local Member of Provincial Parliament, the Association of Municipalities of Ontario (AMO), the Ontario Library Association (OLA), and the Federation of Ontario Public Libraries (FOPL) for their support and advocacy.

EASTHOLME'S RESIDENT SUMMER HIGHLIGHTS

-By The Manager of Recreation

In August, we took 33 residents to the beach in Callander, where family and friends joined us for two fun-filled days in the sun. Our new Sunday afternoon Bible study group continues to be a huge success, thanks to the dedication of a wonderful group of volunteers.

Earlier this summer, we welcomed two additional St. John Ambulance therapy dogs to the home, Petra and Lexie, who have already become much-loved visitors. Gardening has been in full swing throughout the spring and summer months, and our annual canning season is now underway. The remaining canning activities will be completed during the first week of September.

Behavioural Support Ontario- (BSO) EXPANDED TEAM

- By BSO Support Worker

The BSO team continues to play an active role in providing enhanced education and training opportunities for staff across all departments. This year, the team participated in the pilot implementation of Nonviolent Crisis Intervention (NVCI) training within the Home, with additional training sessions already being planned for 2027.

"The goal of education is understanding; the goal of training is performance."

Two additional BSO team members have successfully completed the *Living the Dementia Journey (LDJ)* Train-the-Trainer program. This achievement will expand our in-house training capacity and increase the number of education sessions that can be offered each year.

The Home continues to leverage Local Priorities Funding to support BSO-led initiatives that enhance resident care and staff development. One key initiative currently underway is the pursuit of DementiAbility certification, an important step toward strengthening our commitment to delivering exceptional dementia care and supporting meaningful engagement for residents living with dementia.

ADMINISTRATIVE SERVICES

-By The Administrator

We are pleased to share that our application for Local Priorities funding was successful. Through this funding, we have been approved for $71,364 to support a temporary full-time BSO Activity Aide position for the 2026–2027 funding year. This position will help enhance programming and provide meaningful support for residents through the Behavioural Supports Ontario initiative.

WHAT'S HAPPENING IN DIETARY

- By The Manager of Food and Nutrition

The Dietary Team is busy preparing for our annual Black-Tie Dinner, a cherished event that provides residents with an elegant dining experience and an opportunity to celebrate the holiday season together. Our staff take great pride in creating a memorable evening, complete with exceptional service, delicious meals, and a warm, restaurant-style atmosphere.

The Dietary Department is also gearing up for our annual Christmas baking tradition. The kitchen will soon be filled with the aromas of freshly baked cookies, festive squares, and other holiday treats lovingly prepared by our team. We look forward to bringing the sights, smells, and tastes of the season to residents, families, and staff.

Thank you to our dedicated Dietary Team for their hard work and commitment in making these special holiday traditions possible.

ENVIRONMENTAL SERVICES

-By The Manager of Environmental Services

Eastholme's Environmental Services Department is pleased to announce that we will be upgrading our nurse call and wander management systems this fall.

Upgrading the nurse call system in our home is a positive and meaningful investment in resident safety, staff support, and quality of care. This modern nurse call system helps residents communicate their needs quickly and clearly, while giving nurses, personal support workers, and care teams faster access to real-time alerts. This can improve response times, and provide greater peace of mind for residents, families, and staff.

The upgrade also supports better day-to-day operations by improving communication across resident rooms, washrooms, common areas, and care stations. Features such as clearer call identification, escalation options, reporting, mobile notifications, and improved system reliability can help staff prioritize urgent needs and work more efficiently. This improvement aligns with the goal of providing safe, responsive, resident-centred care.

Demonstrating our strong commitment to continuous improvement, dignity, and safety, the MiAlert system will give residents the confidence that help is accessible when needed, supports staff with dependable tools, and helps the home prepare for future care needs with a more modern and adaptable communication system.

NURSING DEPARTMENT ACHIEVEMENTS

-By The Director of Care

One of the Nursing Department's key accomplishments this year has been our work with the Registered Nurses' Association of Ontario (RNAO) to strengthen person-centered care practices. Through staff education, quality improvement initiatives, and the adoption of best practices, we continue to enhance resident and family involvement in care planning and decision-making.

Quality improvement remains central to our work. Ongoing education, clinical audits, infection prevention measures, and regular review of resident outcomes help us maintain high standards of care while improving safety, quality, and resident experience.

As we move into the fall and winter months, our team remains focused on resident wellness through immunization programs, infection prevention, and proactive health monitoring. Working closely with residents, families, physicians, and our interdisciplinary team, we are committed to providing safe, compassionate, and resident-centered care every day.

RECREATION SERVICES

-By The Manager of Recreation

The Family Council Fall Fair is scheduled for September 12th, and the first of this season's canned goods will be available for purchase. Looking ahead, our annual Black-Tie Dinner will take place on November 24th.
New this year, the evening will be followed by a concert in the auditorium.

Planning is also underway for our 5th Annual Winter Wonderland on December 4th, and we are working hard to make it the best year yet.

We are pleased to share that the ActivityPro Family Portal is now active, and families continue to be added regularly. Currently, approximately 50% of families have been provided with access to the portal.

A CALL FOR SUPPORT

-By The CSSP Program Coordinator

CSS hosts monthly luncheons in 10 different communities where seniors pay only $10 for a hearty meal and enjoy socialization. To stay active there are 11 locations of weekly senior exercise classes, and 3 locations of a specialized 12 week fall prevention program – all of which are free to participants. Thanks to our dedicated volunteers we continue to provide affordable and accessible transportation to both local and out of town medical appointments, ensuring rural area clients have access to their medical needs.

COMMUNITY SUPPORT SERVICES

Community Support Services is excited to announce the launch of their brand-new exclusive website. This website was designed to make our services more visible and more accessible – whether you wish to refer someone or refer yourself for our services; sign up to become a volunteer; view our frozen meal order form; find out where and when our fall prevention classes and senior luncheons take place; RSVP to the luncheons; or share feedback on our services - this website is a one-stop shop for all things CSS!

In addition to the website, CSS onboarded to the Zippy Meals platform to better manage their hot and frozen meal delivery program. This has created many efficiencies when it comes to the delivery of almost 14,000 meals across the district.

We are very much in need of more volunteers who can drive clients to appointments and deliver meals to them. Those interested in making a difference in their community can reach out to us at 705-724-6028 or email lprice@eastholme.ca or send us a message on our Facebook page.

WHAT'S NEW- ACTIVITIES THIS FALL AND WINTER!

Resident Family Council in collaboration with the Recreation department will be hosting two special events for the residents, Sept 12th Fall Fair and December 4th Eastholme's Winter Wonderland.

RECRUITMENT INITIATIVES

COME JOIN OUR TEAM!

-Competitive wage and benefit package with OMERS pension
-Wonderful setting working with seniors and excellent staff
