Notes:
Asset Management Plan – the updated plan was completed and adopted by Council in 2025. The required annual report to the Ministry of Infrastructure on the status of the plan was completed under the MFOA program of AMP It Up at no cost to the Township using the services of UrbanRE. The Township of Nipissing approved the update for submission July 14, 2026, Resolution R2026-156, we are in full compliance with the Asset Management Program.

Following the Human Resources Review it was recommended that Employee Agreements be updated and put in place for all Staff. This was completed in 2026.

Utilizing a remaining portion of the Modernization of Municipal Services Grant, an electronic landfill card system was introduced at the Township Landfills. Without utilizing a bag limit, the amount of waste deposited at each landfill is tracked electronically providing instant information to the Ministry of the Environment as required under the Certificate of Authority issued to each Landfill Site. Modernizing the service allows for a stricter control on items entering the landfill and ensures that the residents of the Township supporting landfill operations by the municipal taxes are receiving the full value of service and helping to extend the life of the landfill sites.

Local Historical and Natural Heritage Features

Objective	Method	Timeline	Status as of October 2026
